

Oasis WX Configured, 48-inch Shower Compartment With ActivLife 2-Bar (2-horizontal) Package

Specification – Oasis one-piece FRP gelcoat shower compartment SH-WX-4838, with an expanded shower entry profile to minimize transfer space into the shower, offered in a standard 4-inch or 6-inch (ABF) dam configuration. ActivLife package includes a horizontal bar across the back wall and across the control wall.

Standards Certification:

The shower compartment listed is manufactured in compliance with ANSI Z124 Standards, and certified through an ongoing, independent quality assurance and testing program.

The factory-applied grab bar package is certified through an independent review program.

Photo 1: Grab Bars: Factory-installed 1.50-inch diameter, concealed attachment, 18 gauge, #304 brushed stainless steel grab bars. Concealed attachment design provides tamper-resistance and minimizes debris collection areas at contact points, compared to common exposed flange bar designs, without compromising bar attachment integrity. (Reinforced areas include a structural core material encapsulated in FRP composite.)
