

Oasis 48-inch Shower Compartment With ActivLife 3-Bar (2-horizontal / 1-vertical) And Folding Seat Package

48-inch / Private Access / Bars / Seat & Seat

Specification – Oasis one-piece FRP gelcoat shower compartment SH-4836, offered in a standard 4-inch or 6-inch (ABF) dam configuration. ActivLife package includes a horizontal bar across the back wall and side wall opposite the seat, a vertical bar on the side wall opposite the seat, and a folding seat.

Standards Certification:

The shower compartment listed is manufactured in compliance with ANSI Z124 Standards, and certified through an ongoing, independent quality assurance and testing program.

The factory-applied grab bar and seat package are certified through an independent review program.

SH-4836 / TLV-RS
(RH seat / 3-bar package)
Model & Package Illustrated

NOTE: Positioning of factory attached grab bars and seat allow for the installation of a shower enclosure.

SH-4836 (Std or ABF)	/ TLV-RS SNK (right seat)	48" x 36", center drain shower with 4" (std) or 6" (ABF) dam, and ActivLife 1.25" dia. nickel finish 3-bar and seat package (single horizontal back wall bar, single horizontal and vertical bar on side wall opposite seat, and folding seat).
SH-4836 (Std or ABF)	/ TLV-LS SNK (left seat)	

Available Factory Installed Packages (model available without any component or reinforcement packages)

Component Packages:

- 1. TLV package code: 2-wall, 3-bar package with phenolic folding RH or LH seat
- 2. TL package code: 2-wall, 2-bar package with phenolic folding RH or LH seat
- 3. BP2 package code: 2-wall, 3-bar package
- 4. BP1 package code: 2-wall, 2-bar package
- 5. BP3 package code: 3-wall, 3-bar package
- 6. BP5 package code: 1-wall, 1-bar package

Reinforced ONLY Packages:

- 7. FH package code: reinforcement for horizontal bars, based on HUD/FHA-Fair Housing
- 8. 3SM & 3SF package codes: expanded reinforcement packages, (with or without package components)

Photo 1: Grab Bars: Factory-installed 1.50-inch diameter, concealed attachment, 18 gauge, #304 brushed stainless steel grab bars. Concealed attachment design provides tamper-resistance and minimizes debris collection areas at contact points, compared to common exposed flange bar designs, without compromising bar attachment integrity. (Reinforced areas include a structural core material encapsulated in FRP composite.)

Photo 2: Grab Bars: Factory-installed 1.25-inch dia. powder coated (in finishes listed above), concealed attachment, 18 gauge, #304 stainless steel grab bars. Concealed attachment design provides tamper-resistance and minimizes debris collection areas at contact points, compared to common exposed flange bar designs, without compromising bar attachment integrity. (Reinforced areas include a structural core material encapsulated in FRP composite.)

Photo 3: Shower Bench Seat: Factory-installed shower bench seat with non-porous, high-pressure laminate upper and lower surfaces, fused to high-density phenolic core. The seat area secures to an 18 gauge, #304 stainless steel framework, and easily pivots upward to store along the wall without supplemental fasteners. Heavy-duty wall (hinge) bracket design eliminates supplemental legs and is formed from 10 gauge, #304 brushed stainless steel. (Reinforced area includes a structural core material encapsulated in FRP composite.)
